- Developing Organizational Vision and Strategic Direction
- Research for Senior Managers

Level 7 PG Diploma Optional Units

- Human Resource Management
- Project Management
- Programme Leadership
- Strategic Resource Management
- Risk Management
- Managing Stakeholder Engagement
- Corporate Communications Strategies
- Leading Organizational Equality and Diversity
- Sustainable Business Strategy
- Managing Quality and Service Delivery

Level 7 PGD in Healthcare Management provides the knowledge and understanding needed for those planning to or working in management in the healthcare sector, both internationally and in the UK, and includes optional units that are specifically targeted at those working in the public sector.

Whilst the core knowledge and concepts of management are still applicable for a manager in the healthcare industry, there are also some specific areas where managers transferring from other industries may struggle. These qualifications consider and address those areas, strengthening the learner's skillset for a healthcare manager position.

Learners that complete this qualification can progress onto an MSc Top-Up programme with the University of Portsmouth or 100s of other Universities.
