

LEVEL 7 Computing Technologies (POST GRADUATE DIPLOMA)

Pursue a career in cyber security, web development or strategic IT management.

The Level 7 Extended Diploma in Computing Technologies is a 120-credit Ofqual regulated qualification. It provides the core knowledge, understanding and skills to support learners planning to further their studies and careers in the field of computing technologies.

The qualification has been developed in collaboration with subject experts, colleges, higher education institutions and businesses to ensure the qualification meets their needs.

The different pathways allow learners to study a more general (non-specified) programme or specialise in particular fields of study as listed below. All pathways have the same credit value.

These qualifications are designed for learners who are typically aged 21 and above and have already graduated in a computing and/or information technology qualification at Level 6.

This qualification is recognised by a number of Higher Education Institutes, allowing learners to progress to Master's Top-Up programmes.

This computing qualification is graded, with learners able to achieve a pass, merit or distinction. The qualifications provide a flexible route for learners who have already achieved qualifications at a lower level as well as for learners who have prior computing experience in the work place.

Level 7 mandatory units:

- Managing Innovation and Change in Computing
- Systems Development and User Experience (UX)
- Implementing and Managing Cyber Security
- Business Intelligence Systems
- Independent Project

Level 7 extended diploma pathways:

Our revised Level 7 qualification allows learners to specify a pathway in an area of their choice by selecting the relevant modules. The optional Level 7 pathways are:

- General Route
- Software Engineering
- Application Development
- Data Analytics
- Networking
- Artificial Intelligence

Qualification Number	603/7702/1

Size: 120 Credits (600 Guided Learning Hours)

Entry Requirements:

Age: 19+ Entry profile:

Entry profile:

• A first degree in Computing and/or Information Technologies or a related subject • Other equivalent international qualifications.

• May also have relevant work experience

MODE OF STUDY: Classroom, Online and Blended.

Assessment: Assignment/Test
